

BJACH OB/GYN Clinic

Positive home pregnancy test? Please read the steps below on the process to be referred to our clinic.

1. Call (337-531-3011) and make a telephone consult (T-CON) appointment with your PCM stating that you took an at home pregnancy test and would like to take a confirmation pregnancy test within our laboratory.
2. Your provider or a representative from the laboratory will call to inform you of the positive pregnancy test within 72 hours. Your PCM will place a referral to our clinic for your OB care.
3. Upon receipt of referral and confirmation of pregnancy, our clinic will order a dating ultrasound to be scheduled between gestational weeks 8-10. Pending the results our clinic will call to either schedule your first virtual health OB Registration appointment or to discuss referral to the network if medically necessary.
4. If we get the pleasure of providing your OB care, please complete the fillable "OBREG" PDF found on our website 5 days before your scheduled OB Virtual Health appointment. Once complete, this can be sent to our clinic through Relay Health. The scheduled telephone virtual health visit will review your medical history and to communicate initial pregnancy counseling.
5. New OB Physical: This appointment with the provider will typically occur between 10 and 12 weeks gestation.
6. If you have any questions about the process please give us a call at 337-531-3705/3708.
